**Dear GMA 6 Participants,**

Welcome to this sixth edition of the Global Meeting of Associations of Universities and other Higher Education Institutions (GMA 6). For this edition, IAU partners with the Inter-American Organization for higher education (OUI-IOHE) and Université de Montréal. We are pleased to welcome you to Montreal.

Organised biannually by the International Association of Universities, this year's two-day Meeting, exclusively developed for leaders of national, regional and international associations / organisations of higher education institutions (HEIs), centres on the theme: *Social innovation: challenges and perspectives for Higher Education*.

The global and local challenges faced by societies and by our shared planet, require **innovation** in all domains. Usually associated with technology, it is often forgotten that **social innovation** is also continuously taking place and that it can have an even more lasting impact. Definitions of this concept vary but, generally speaking, social innovation is described as “a dynamic that, in response to current clearly defined social needs, offers more appropriate and more sustainable solutions. Social innovations taken up by an institution, an organization or a community offer measurable benefits for the collective, rather than simply for certain individuals. The impact of social innovation is transformative and systemic. By its inherent creativity, social innovation represents a break from what is”.

As the need for innovation increases and the expectation that higher education must contribute to it grows as well, the theme is of growing interest to all stakeholders in society including universities. **Higher education associations are well placed as actors of social innovation and to stimulate discussions about social innovation. The GMA is thus an opportunity for exploring ideas, strategies and success stories about higher education's involvement in social innovation.**

Learning from one another how to better support institutional initiatives and to facilitate advances in this area will soon become important for all associations. We invite you, as leaders and representatives of organizations of higher education, to join us in learning more about **the role that universities can play in regards to social innovation for the benefit of society locally and internationally**.

Each GMA organized by IAU is designed to offer participants a global networking platform to learn about the work of other associations as well as an opportunity to learn more about the local higher education context. We hope that you will use this opportunity to learn more about higher education and research in Montreal, in Quebec and in Canada more generally.

We hope that GMA 6 will be of interest to you and that the Meeting will be a worthwhile and enjoyable experience.

Sincerely yours,

---

## Chers participants au GMA 6,

Bienvenue à cette 6<sup>e</sup> édition de la Réunion mondiale des Associations d'Universités et autres établissements d'enseignement supérieur (GMA 6). Pour cette édition, l'AIU a travaillé en partenariat avec l'Organisation Universitaire Interaméricaine (OUI-IOHE) et l'Université de Montréal, et nous sommes très heureux de vous accueillir à Montréal.

Organisée tous les deux ans par l'Association internationale des Universités, la réunion de deux jours de cette année, organisée exclusivement pour les responsables d'associations / organisations d'établissements d'enseignement supérieur (EES), porte sur le thème : *L'innovation sociale : défis et perspectives pour l'enseignement supérieur*.

Les défis locaux et mondiaux, auxquels les sociétés et notre planète doivent faire face, impliquent que nous fassions preuve d'**innovation** dans tous les domaines. Communément associée à la technologie, on oublie bien souvent que **l'innovation sociale** est continuellement en marche et qu'elle peut s'avérer avoir un impact bien plus durable. Les définitions d'un tel concept varient, mais on s'entend généralement pour la décrire l'innovation sociale comme "*une dynamique qui répond plus adéquatement et plus durablement que les solutions existantes à un besoin social bien défini. L'innovation sociale, qui a trouvé preneur au sein d'une institution, d'une organisation ou d'une communauté, produit un bénéfice mesurable pour la collectivité et non seulement pour certains individus. La portée d'une innovation sociale est transformatrice et systémique. Elle constitue, dans sa créativité inhérente, une rupture avec l'existant*".

Alors que les besoins en innovation ne cessent d'accroître et qu'il est attendu de l'enseignement supérieur (ES) qu'il y contribue, le thème de ce GMA et d'importance croissante pour toutes les parties prenante de la société dont les EES font partie. **Les associations de l'ES sont bien placées, en tant qu'acteurs de l'innovation sociale, pour favoriser et engager des discussions sur ce sujet. Le GMA est ainsi l'opportunité d'explorer des idées, des stratégies et de découvrir des exemples de réussite relative à l'engagement de l'enseignement supérieur vis-à-vis de l'innovation sociale.**

Apprendre les uns des autres comment mieux soutenir les initiatives des établissements et faciliter les avancées dans ce domaine sera bientôt important pour toutes les associations. Nous vous invitons, en tant que dirigeants et représentants d'organisations de l'ES, à vous joindre à nous afin d'en apprendre plus sur **le rôle que les universités peuvent jouer en faveur de l'innovation sociale, pour le bénéfice de la société au niveau local et mondialement**.

Chaque GMA est organisé par l'AIU afin d'offrir aux participants une plateforme mondiale de réseautage, l'opportunité d'en apprendre plus sur le travail des autres associations, ainsi que l'opportunité cette fois-ci, d'en apprendre davantage sur l'enseignement supérieur et la recherche à Montréal, au Québec et plus généralement au Canada.

Nous espérons que le GMA 6 répondra à vos attentes, et que cette réunion s'avèrera être une expérience à la fois utile et agréable.

Bien cordialement,

### The Inter-American Organization for Higher Education (IOHE)

IOHE: the only inter-American voice of its kind

The IOHE is the only university association on an inter-American level; it is also an active member of the International Association of Universities (IAU).

The IOHE's updated mission comprehends its Strategic Orientations, which are based on six principal axes: Human Capital, Common Spaces, Internationalization, Innovation, Governability and Visibility. These are, in turn, shared with similar associations, at a global level.

Additionally, the IOHE has reached its objectives, due to its three main tools, the programs: the Institute for University Leadership

and Management (IGLU), the College of the Americas and CAMPUS, through which the IOHE has achieved 40 strategic actions, out of 52, planned to be developed and established during the 2011-2016 period. The referred accomplishments were the result of the mobilization of 8,095 participants, who joined these actions and allowed the creation of nine common spaces in the Americas.

### Université de Montréal (UdeM)

It shines by faith and knowledge

Founded in 1878, the Université de Montréal with its two affiliated schools, the École Polytechnique and HEC Montreal, is today the first university in Quebec, the second in Canada and the 83rd in the world according to the QS Word University ranking.

UdeM welcomes more than 55,000 students, employs 10,000 people, awarded nearly 10,000 degrees at all academic levels yearly, and offers hundreds of programs, covering all fields of knowledge.

Rooted in Montreal, international by its mission, the Université de Montreal is one of the largest universities in the Francophone World.

The UdeM campus, which brings together green areas and modern architecture, follows the great tradition of North American campuses.

# International Association of Universities (IAU)

## Building a worldwide higher education community

Founded in 1950 under the auspices of UNESCO, the International Association of Universities (IAU) is an **independent international non-governmental organization**, based in Paris, France. It is a membership organization that brings together universities, other institutions of higher education and national and regional higher education associations from around the world.

Its mission is to **strengthen higher education worldwide** by providing a global forum for institutional and associations leaders from more than 120 countries for reflection and action on common concerns and to collaborate with various international, regional and national bodies active in higher education.

The Association upholds the values of **academic freedom and institutional autonomy**, while promoting greater **accountability, institutional responsibility and effectiveness**, and the ideal of **knowledge made accessible** to all through collaboration, commitment to **solidarity** and equitable access to higher education.

2012-2016 IAU Administrative Board

The screenshot shows the IAU website's homepage. At the top, there is a banner with the text "Building a worldwide higher education community". Below the banner are several news items and links. On the left, there is a sidebar with links for "About IAU", "Actions", "Events", "Services and Publications", "Calls", "Specialist Portals", and "Join". The main content area features a large image of people at a conference, followed by sections for "News from IAU", "Upcoming Events", and "Actions". The "Upcoming Events" section lists "2013 6th Global Meeting of Associations (GMA VI) 07" and "IAU 2015 International Conference 20". The "Actions" section includes links for "Access and success", "Doctoral programmes", "EFMDGs", "Ethics and dialogue", "Internationalization", "Innovation and development", "Ethics in Higher Education", and "CER and the Academic Librarian". There are also sections for "Calls for proposals" and "IAU Palgrave Prize Essay Competition". At the bottom, there are links for "Other news from IAU", "My IAU", and "IAU Members".

The IAU is committed to building partnerships and networks among higher education institutions worldwide as well as with various international, regional and national bodies; it provides its Members, and more generally all higher education stakeholders (decision-makers, specialists, administrators, academics, researchers and students), with a unique global platform for debate and networking. It also offers its Members a wide range of services, including **information and reference publications** such as the *International Handbook of Universities* (through the IAU/UNESCO Information Centre on Higher Education), **research and analysis of latest developments in higher education** (through its quarterly research journal, *Higher Education Policy* and other reports), and **advocacy** on behalf of higher education institutions on a number of key topics (through its **Policy Statements** in which the Association's values are also reaffirmed). IAU values are also taken up in the **IAU Letter of Commitment** which Member institutions are invited to sign when adhering to the Association.

In addition to its comprehensive website, the Association maintains specialised portals such as: **HEEFA** - the portal on Higher Education/Research and EFA/related MDGs, ([www.heefa.net](http://www.heefa.net)); **IDEA-PhD** – portal on doctoral education in Africa ([www.idea-phd.net](http://www.idea-phd.net)); **HESD** – portal on Higher Education's actions to promote Sustainable Development ([www.iau-hesd.net](http://www.iau-hesd.net)), and the **WHED** – World Higher Education Database ([www.whed.net/home.php](http://www.whed.net/home.php)).

# **Presentation of the higher education system in Quebec**

## **Présentation du système d'enseignement supérieur au Québec**

Higher education in Canada, as well as primary, secondary, vocational or technical education, is the constitutional responsibility of the provinces.

In **Quebec**, higher education is delivered by two main types of institutions: colleges and universities. The Collèges d'enseignement général et professionnel (CEGEPs) offer two different types of programmes:

- 2-year pre-university programmes leading to university
- and 3-year technical programmes mainly for entry into the labour market.

There are 48 public CEGEPs (43 French-speaking and 5 English-speaking) located in large and medium cities of the province. There are also 25 private subsidized institutions under the responsibility of the Ministère de l'Éducation, du Loisir et du Sport (18 French-speaking; 3 English-speaking; 4 French-English-speaking). Some institutions are under the responsibility of other Ministries such as music conservatories or agricultural institutes. The programmes offered by these institutions are approved by the Ministère de l'Éducation, du Loisir et du Sport (MELS).

There are also 32 private colleges under licence of the MELS. There are 18 universities organized as follows:

- 3 English-speaking degree-granting universities (McGill, Concordia and Bishop's);
- 15 French-speaking degree-granting universities (Laval, Montréal, École Polytechnique de Montréal, École des Hautes Études Commerciales de Montréal, Sherbrooke and the 10 institutions related to the Université du Québec network hereby located in the main cities of the province).

Except for the Université du Québec, created by an Act of the National Assembly of Quebec, each other institution has a private charter. Although the Québec government provides a major portion of their funding, these institutions operate independently in all academic matters (admission, programs of study, evaluation, management, staffing).

### **Stages of higher education**

**Collegial (general or technical):** the college system in Québec includes two-year pre-university programmes leading to university, and three-year technical programmes leading mainly to the labour market, with the possibility to attend the universities. These pre-university and technical programmes include common courses as general education, thereby providing a true system of college education with a general or technical Diploma of College Studies (DCS) issued by the Minister on recommendation of the college.

#### **University level first stage: Bachelor's Degree**

The undergraduate university level usually leads to a Bachelor's degree after 3 or 4 years of study (Teacher Education, Engineering, and Medicine). In English-universities, a bachelor programme can include a major and one minor or a choice of 3 certificates. Universities also offer short programmes, recognized by an undergraduate certificate.

#### **University level second stage: Master's Degree**

The graduate university level usually leads to a Master's degree normally requiring 2 years of study and a dissertation after a Bachelor's degree. Universities also offer short one-year programmes recognized by a Diplôme d'études supérieures spécialisées (advanced graduate diploma). Graduate students include medical residents whose clinical training period may vary by specialty, with a minimum of 2 years.

#### **University level third stage: Ph.D./Doctorate**

Post-graduate studies lead to a PhD, requiring 3 years of study after the Master's degree and the submission of a major thesis (doctoral dissertation).

# 6<sup>th</sup> Global Meeting of Associations

## Social innovation: challenges and perspectives for Higher Education

### Participants/ Participants

IAU Global Meetings of Associations (GMAs) are held once every two years. They are organized exclusively for leaders of national, regional and international associations/networks of HEIs. The GMAs offer a unique opportunity for representatives of a variety of university associations to come together to share their expertise, learn from each other and generally network around shared issues of interest.

*Les Réunions mondiales des associations (GMA) se tiennent tous les deux ans. Elles sont organisées exclusivement pour les leaders d'associations/réseaux nationaux, régionaux et internationaux d'établissements d'enseignement supérieur. Les GMA offrent une opportunité unique, à toute une variété de représentants d'associations d'universités, de se rassembler afin que partager leur expertise, apprendre les uns des autres et faire du réseautage autour de problématiques communes.*

### Theme/ Thème

This 6<sup>th</sup> edition of the GMA focuses on **social innovation** required to meet global and local challenges faced by societies and by our shared planet. Usually associated with technology, it is often forgotten that social innovation is also continuously taking place and that it can have an even more lasting impact. Definitions of this concept vary but, generally speaking social innovation is described as “*a dynamic that, in response to current clearly defined social needs, offers more appropriate and more sustainable solutions. Social innovations, taken up by an institution, an organization or a community, offer measurable benefits for the collective rather than simply for certain individuals. The impact of social innovation is transformative and systemic. By its inherent creativity, social innovation represents a break from what is.*”<sup>1</sup>

Participants will be invited to discuss whether and how universities and other higher education institutions, and their organizations can engage more fully in such transformations, what specific role higher education can play and how social innovation can be more easily recognized and valued. They will compare notes on how associations and organisations develop their strategies to meet these challenges.

*Cette 6<sup>e</sup> édition du GMA porte sur les défis mondiaux et locaux auxquels les différentes sociétés et la planète qu'elles partagent doivent faire face à grand renfort d'innovation dans tous les domaines. Généralement associée à la technologie, on oublie souvent que l'innovation sociale est également un processus en cours et qu'il pourrait même avoir un impact bien plus durable. Si les définitions d'un tel concept peuvent varier, on s'entend généralement pour dire « qu'une innovation sociale est une nouvelle idée, approche ou intervention, un nouveau service, un nouveau produit ou une nouvelle loi, un nouveau type d'organisation qui répond plus adéquatement et plus durablement que les solutions existantes à un besoin social bien défini, une solution qui a trouvé preneur au sein d'une institution, d'une organisation ou d'une communauté et qui produit un bénéfice mesurable pour la collectivité et non seulement pour certains individus. La portée d'une innovation sociale est transformatrice et systémique. Elle constitue, dans sa créativité inhérente, une rupture avec l'existant »<sup>1</sup>.*

Ainsi, les participants seront invités à discuter si et comment les universités et autres établissements d'enseignement supérieur et les organisations qui les rassemblent et les représentent peuvent s'engager davantage dans de telles transformations, du rôle que l'enseignement supérieur peut jouer et de la manière dont l'innovation sociale peut-être plus facilement reconnue et valorisée. Ils compareront leurs notes et points de vue sur la manière dont les associations et les organisations peuvent développer leurs stratégies, de manière à répondre à ces nouveaux défis.

**The GMA will be held in English and French/ Le GMA sera tenu en anglais et en français**

# IAU values diversity

The IAU Membership is the best testimony of the association's appreciation of diversity. Traditionally, IAU counted a widely diverse institutional Members from around the globe. Since 2000, it is also pleased to count numerous and often different Organisational Members as part of its Membership, along with IAU Affiliates, Observers and Associates.

All Members are listed online at: [www.iau-aiu.net/content/members](http://www.iau-aiu.net/content/members)

## Member Institutions

IAU counts more than 600 Members from some 120 countries from around the globe. All institutional Members are listed on the IAU website. It would be too long to list them here. Yet, beyond the list itself, the regional distribution is also of interest for the GMA debates. On 1 October 2014, at the start of the IAU financial year 2014-2015, the Membership distribution per region reads as follows:

## Organizational Members

IAU Member Organizations, represented by a diverse group of higher education organizations active at the national, regional and/or international level, to which full benefits and voting rights are being granted, are also represented on the Administrative Board.

The IAU is proud to count **29 organizational Members** from **19 countries** as per the lists below.

# Practical Information

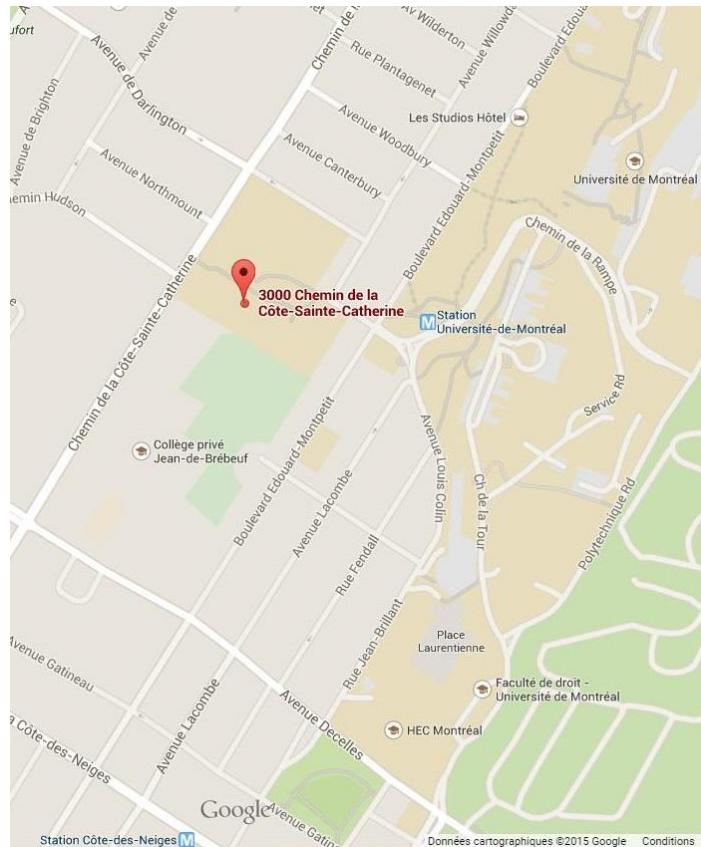

## The venue – Faculté de l'aménagement, UdeM

All GMA sessions, starting on May 6<sup>th</sup> take place at:

HEC Montréal

**Édifice Côte-Sainte-Catherine**

3000, chemin de la Côte-Sainte-Catherine  
Montréal (Québec) H3T 2A7

### Getting There

The easiest and cheapest way to reach the GMA venue is to use public transports (coordinated by the Société des transports de Montréal – STM) such as the metro or the bus.

Should you plan to arrive a few days before the GMA or to spend the week-end in Montreal, the IAU recommends to buy a **Weekly pass (\$ 25.50)**, offering unlimited travel from Monday to Sunday (on sale Friday for the following week). This fare is valid on the P.-E. Trudeau/Downtown shuttle (747).

#### By Metro

The Metro is quick and it is an easy way to reach HEC Montréal. Three metro stations serve the campus of the Université de Montréal.

HEC Montréal is located at:

- 6 minutes' walk from the metro station **Université de Montréal** (via Avenue Louis Collin)

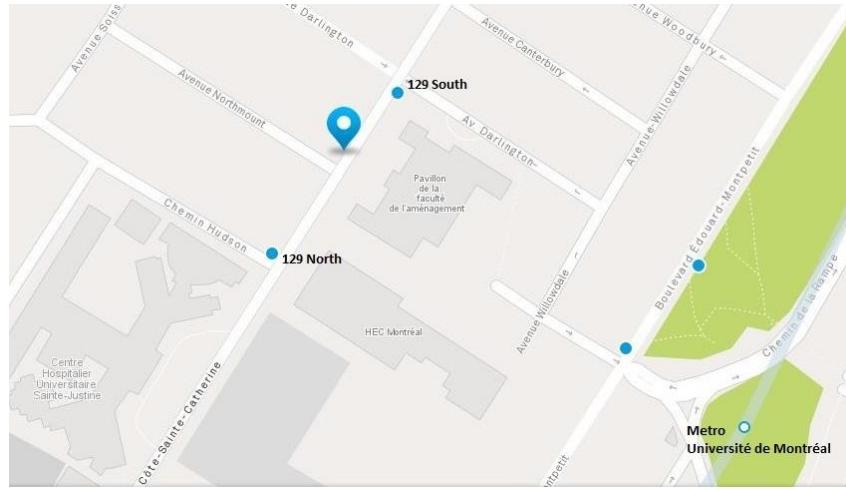

- **13 minutes' walk** from the metro station **Édouard-Montpetit** (via Avenue Woodbury and Chemin de la Côte-Sainte-Catherine)
  - **16 minutes' walk** from the metro station **Côte-des-neiges** (via Chemin de la Côte-des-Neiges and Chemin de la Côte-Sainte-Catherine)

## *By Bus*

To circulate easily, the STM offers also 220 bus lines, usually crossing the city from north to south and from east to west.

If you stay downtown, nearby the **Place des arts**, you have the option to take the line **129 Côte-Sainte-Catherine** from [Jeanne-Mance / Du Président-Kennedy](#) (bus stop # 61049 > North). You will then stop at [Côte-Sainte-Catherine / Hudson](#) (bus stop # 51160).

### *By Taxi*

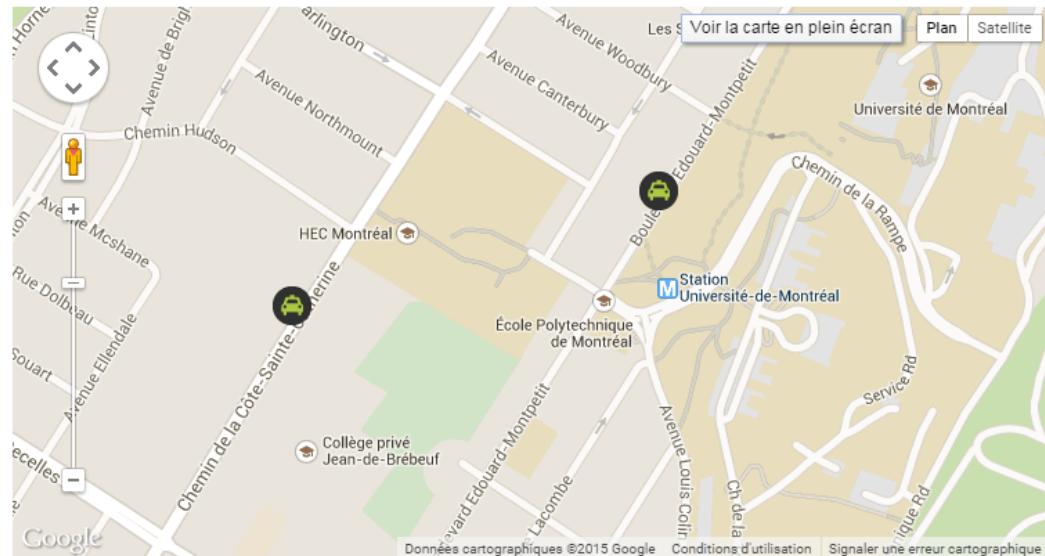

The fare of a taxi ride, to which must be added the rate per kilometer, is displayed on the meter. There is no special fare for rides by night or during the week-end. A receipt is provided upon request and tipping is discretionary. A lantern on the top of the car indicates if the taxi is available (light on) or not (light off). There are more than 459 taxi stations in Montreal.

The Bureau du taxi de Montréal indicates the following:

Two **taxi stations** are located nearby the GMA venue:

- Station #199: 2767 Édouard-Montpetit
- Station # 200: 3175 Chemin de la Côte-Sainte-Catherine

## Notes

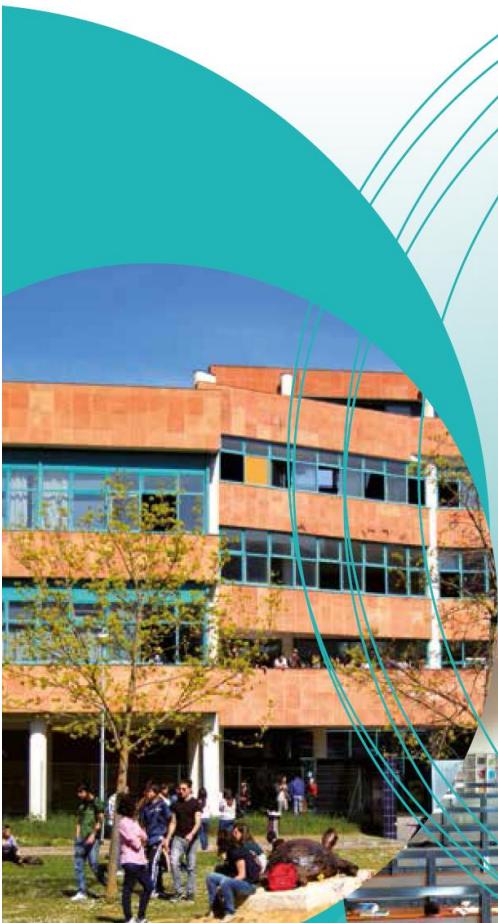

## Internationalization of Higher Education: moving beyond mobility

**28-30 October**  
University of Siena, Italy

Internationalization of higher education is an important priority for many governments, for university leaders and other higher education stakeholders. It has been on the IAU agenda for many years and has led the Association to develop policy, research and services in support of institutional efforts in internationalization.

This Conference will address:

- ⌚ Internationalization: a path to more quality?
- ⌚ Can internationalization change the student experience without mobility?
- ⌚ Internationalization as a knowledge change agent
- ⌚ How can internationalization help overcome disparities and inequalities?
